EDUCATION

Bachelor's degree
Amity, University
2029

--

TECHNICAL SKILLS

- Python
- Tableau, SQL
- Matplotlib
- Pandas
- Matplotlib
- NumPy
- Seaborn
- C
- PyTorch

PROFESSIONAL DEVELOPMENT

BCA (Data science & AI)
Amity Ranchi
2026

PROFESSIONAL OVERVIEW

Hi, I'm a Data Science and AI student with experience in data analytics using Python and important libraries such as NumPy, Pandas, Matplotlib, and Seaborn. I also have experience working with MySQL Workbench and Tableau for data analysis and visualization. I have a good understanding of Machine Learning using Scikit-learn and Deep Learning using PyTorch. I have worked on several projects, including a Movie Recommendation System, a Face Recognition

WORK EXPERIENCE

Projects

projects covering Data Analytics, Machine Learning, Computer Vision, and Database Management using Python and related technologies. Built solutions including a CPU performance dashboard, face recognition attendance system, posture detection, movie recommendation system, and email spam classifier.

- Student Face Recognition & Attendance Management System.([click here](#))
- CPU Performance Dashboard([click here](#))
- Body Posture Detection System([click here](#))
- Movie_Recommendation_System([click here](#))
